Local School Councils (LSCs)

In the city of Chicago, Local School Councils (LSCs) serve as a governing body for each district-managed school in the Chicago Public School (CPS) system.

Local School Councils are responsible for:

- Approving the school based academic plan (CIWP)
- Approving the alignment of budgetary resources to the CIWP
- Engaging in the annual evaluation of contract principal's professional practices
- Selecting or renewing contract principals

Comprised of **parents, community, educational, and student members**, LSCs serve as an important vehicle for participatory democracy, providing a wide variety of stakeholders an opportunity to make important decisions about how students in their communities will be educated.
